

ACCELERATED MASTER'S PROGRAM

STUDENT GUIDE TO THE AMP PROCESS

1 I'M INTERESTED IN AN AMP PROGRAM! NOW WHAT?

___ Speak with the program director of your intended program about eligibility and career goal fit.

___ Talk with your undergrad advisor about your interest in the program during your next advising appointment.

(Talk to your advisor about "reserving" electives for courses that apply to AMP.)

2 I MET WITH MY ADVISOR AND THE PROGRAM DIRECTOR. I MEET THE REQUIREMENTS FOR THE AMP PROGRAM.

___ Complete the *Intent Application*. This application states you currently intend and are eligible to, begin taking dual counting courses during your bachelor's degree.

(Just a reminder: This does not admit you into the graduate program and/or AMP.)

3 I FILLED OUT THE INTENT APPLICATION. WHAT'S NEXT?

Your application will go to your program and advisor for review. Once your application is approved:

___ Enroll in your dual-counting courses approved by your program advisor and undergraduate advisor. (Pro tip: Always check with your program on the number of hours you are allowed to take and which courses are approved.)

4 DURING MY JUNIOR OR FINAL YEAR OF UNDERGRADUATE COURSEWORK, I SHOULD:

___ Check the application requirements for your UCCS Graduate School application.

___ Apply to the graduate program using the online UCCS Graduate School application.

(Just a reminder: Each program has different application deadlines! Check these dates early!)

➔ **If you are admitted to the AMP graduate program, graduate-level courses taken during undergrad will count towards both your bachelor's and master's degree requirements.**

___ Apply for Undergraduate Graduation

___ Finish your bachelor's degree requirements and graduate!

5 I COMPLETED MY BACHELOR'S DEGREE AND I HAVE BEEN ADMITTED TO THE AMP GRADUATE PROGRAM:

___ Ensure you are enrolled in your next set/sequence of advised graduate-level courses that correspond with your program curriculum.

(Pro tip: Always check with your program advisor on which courses you should enroll in.)

6 DURING MY MASTER'S PROGRAM:

___ Complete your remaining requirements for your Master's degree and apply for graduation.
